About the Journal

Lok Sambhashan is a double-blind peer-reviewed quarterly research journal for socio-economic, geo-political strategy(ies), and contemporary discourses. The journal focuses on internal & external security, international socio-economic and cultural relations, defense, military strategy, global peace and prosperity, terrorism, Maoism, cyber security, artificial intelligence, and psychological warfare. Besides, it aims to bring the "Himalaya Hind Mahasagar Rashtra Samuh", a vast human and cultural territory, into a new economic discourse. It will prove to be a model for global peace and prosperity.

*The main objective of this journal is to disseminate the message of "**वन्दे नितरां भारतवसुधाम्**" with the feeling of national security. Our vision resonates with our slogan "Security-Development-Awareness-Unity." It aims to develop a strong, secure, and prosperous nation by adopting an Integrated National Security (INS) approach to achieve national objectives by focusing on national security. Thus, our main concept is "**ततो राष्ट्रं बलमोजश्च जातं तदस्मै देवा उपसन्नमंतु**".*

Some of the objectives of this journal are as follows:

1. To develop a comprehensive national defense approach and promote the idea that national security is not only the responsibility of the government but also the responsibility of citizens.
2. To study and analyse contemporary and future socio-national challenges and threats, create public awareness, and contact, communicate, and follow up with the concerned institution and government according to its solution.
*3. To make our youth sensitive to various strategic issues of national security and to develop in them the idea of "**मनसा-वाचा-कर्मणा**" (intellect, speech and actions) to encourage them to contribute actively to national development, ultimately becoming strong, active, and responsible citizens with a holistic view on national security.*
